Lab 1: In-Class Task

HTML & CSS Fundamentals

Duration: 40 minutes

Task: Create a Travel Agency Website

You are hired by **"Wanderlust Travel Agency"** to build their homepage. The agency specializes in adventure tours and wants an attractive website to showcase their destinations, tour packages, customer reviews, and booking information.

Page Requirements

1. Document Setup

- Create an HTML file named `travel.html`
- Include proper HTML5 document structure
- Set the page title to "Wanderlust Travel Agency - Adventure Awaits"
- Use internal CSS in the `<style>` tag or create an external `styles.css` file

---

2. Navigation Bar

Create a navigation bar with `id="navbar"` containing:

- A logo text "Wanderlust" inside a `<span>` with `class="logo"`
- An unordered list with navigation links (use `#` as href):
  - Destinations
  - Tours
  - Reviews
  - About Us
  - Book Now

Style the navigation bar with:

- Fixed position at the top of the page
- Full width with a semi-transparent or solid background
- Logo on the left side with larger, bold font

- Navigation links on the right side displayed horizontally
- Remove list bullets
- Links with no underline, change color on hover
- Add padding and appropriate z-index
- Subtle shadow at the bottom of navbar

---

3. Hero Banner Section

Create a section with `id="hero"` containing:

- A main heading "Explore The World With Us"
- A paragraph: "Unforgettable adventures, breathtaking destinations, memories that last forever"
- Two buttons side by side:
  - "View Destinations" with `class="btn btn-primary"`
  - "Plan Your Trip" with `class="btn btn-secondary"`

Style the hero section with:

- Large height (at least 80vh)
- Background color (or use a placeholder background image)
- Center content both vertically and horizontally
- White text with text-shadow for readability
- Large heading with significant font-size
- Buttons with different styles (primary: filled, secondary: outlined/border only)
- Buttons with padding, rounded corners, hover effects
- Add margin-top to account for fixed navbar

---

4. Popular Destinations Section

Create a section with `id="destinations"` and `class="section"` containing:

- A heading "Popular Destinations"
- A subtitle paragraph: "Discover our most loved travel spots"
- Four destination cards, each in a `<div>` with `class="destination-card"`:

Card 1 - Almaty, Kazakhstan

- Image placeholder (use `https://via.placeholder.com/300x200`)
- Destination name in `<h3>`

- A short description paragraph
- "Starting from $599" in a `<span>` with `class="price"`

Card 2 - Bali, Indonesia

- Same structure as above
- "Starting from $899"

Card 3 - Swiss Alps, Switzerland

- Same structure as above
- "Starting from $1299"

Card 4 - Tokyo, Japan

- Same structure as above
- "Starting from $1099"

Style the destination cards with:

- Cards displayed in a row (4 cards, each approximately 23% width)
- Images at full width of the card
- Hover effect: card lifts up slightly (use `transform: translateY(-10px)`)
- Box-shadow that increases on hover
- Transition for smooth animation
- Price displayed in a different color (e.g., green or orange)
- Padding at the bottom of each card
- Small border-radius on cards and images

---

5. Why Choose Us Section

Create a section with `id="features"` and `class="section"` containing:

- A heading "Why Travel With Us"
- Four feature boxes, each in a `<div>` with `class="feature-box"`:

Feature 1 - Best Price Guarantee

- An icon character or emoji (✈️ or use text "[ICON]")
- Feature title in `<h3>`
- Short description paragraph

Feature 2 - 24/7 Support

- Icon: 📞
- Title and description

Feature 3 - Handpicked Hotels

- Icon: 🏨
- Title and description

Feature 4 - 500+ Destinations

- Icon: 🌍
- Title and description

Style the feature boxes with:

- Display in a row (4 boxes)
- Center-aligned text
- Large icon/emoji size
- Background color different from section background
- Padding inside each box
- Border-radius for rounded corners
- Equal height boxes (hint: consider using same min-height)

---

6. Tour Packages Section

Create a section with `id="packages"` and `class="section"` containing:

- A heading "Our Tour Packages"
- Three package cards, each in a `<div>` with `class="package-card"`:

Budget Explorer

- Duration: 5 Days / 4 Nights
- Price: $499 per person
- Unordered list of inclusions:
    - Economy flights
    - 3-star accommodation
    - Daily breakfast
    - Airport transfers

    - City tour
- "Book Now" button

Premium Adventure

- Duration: 7 Days / 6 Nights
- Price: $999 per person
- Mark this card with additional `class="recommended"`
- Add a "BEST VALUE" badge using a `<span>` with `class="badge"`
- Inclusions:
    - Premium flights
    - 4-star accommodation
    - All meals included
    - Private transfers
    - Guided tours
    - Adventure activities
- "Book Now" button

Luxury Escape

- Duration: 10 Days / 9 Nights
- Price: $1999 per person
- Inclusions:
    - Business class flights
    - 5-star luxury resort
    - All-inclusive dining
    - Private chauffeur
    - Personal guide
    - Spa treatments
    - Exclusive experiences
- "Book Now" button

Style the package cards with:

- Three cards in a row with equal width
- Border around each card
- Header area with package name and colored background
- Price displayed prominently with large font

- Duration in smaller, muted text
- List without bullets, with checkmarks (✓) before each item
- Button at the bottom spanning full width
- The `.recommended` card should:
  - Have a different border color (e.g., gold or blue)
  - Be slightly larger or have a shadow
  - Badge positioned at the top corner

---

7. Customer Reviews Section

Create a section with `id="reviews"` and `class="section"` containing:

- A heading "What Our Travelers Say"
- Three review cards, each in a `<div>` with `class="review-card"`:

Each review card should contain:

- A circular profile image placeholder
- Customer name in `<h4>`
- Location in `<p>` with `class="reviewer-location"`
- Star rating displayed as: ★★★★★ (use the character ★ or ☆)
- Review text in a `<p>` with `class="review-text"` (write 2-3 sentences)

Example reviewers:

- Anna Petrova, Moscow - 5 stars
- John Smith, London - 5 stars
- Mei Lin, Singapore - 4 stars

Style the review cards with:

- Cards displayed in a row
- Light background with subtle shadow
- Circular profile images (use `border-radius: 50%`)
- Star rating in gold/yellow color
- Review text in italic style
- Quotation marks before the review (use CSS `::before` with content property)
- Padding and margin for spacing
- Center-aligned content

---

8. Newsletter Section

Create a section with `id="newsletter"` and `class="section"` containing:

- A heading "Get Travel Deals In Your Inbox"
- A paragraph: "Subscribe to our newsletter and receive exclusive offers"
- A simple form structure (non-functional) with:
  - An email input field with `placeholder="Enter your email"`
  - A submit button with text "Subscribe"
- A small text: "We respect your privacy. Unsubscribe anytime."

Style the newsletter section with:

- Different background color to stand out
- Center-aligned content
- Input field and button displayed inline
- Input field with border, padding, and adequate width
- Button matching the primary button style from hero section
- Small text in muted/gray color
- Rounded corners on input and button

---

9. Footer Section

Create a footer with `id="footer"` containing:

- Four columns inside a `<div>` with `class="footer-content"`:

Column 1 - About

- "Wanderlust" heading
- A short paragraph about the company
- Social media links (use text or icons): Facebook, Instagram, Twitter, YouTube

Column 2 - Quick Links

- Heading "Quick Links"
- Unordered list with links: Home, Destinations, Tours, Reviews, Contact

Column 3 - Contact Info

- Heading "Contact Us"
- Address paragraph
- Phone number
- Email as mailto link

Column 4 - Working Hours

- Heading "Working Hours"
- Paragraphs with:
  - Monday - Friday: 9:00 - 18:00
  - Saturday: 10:00 - 16:00
  - Sunday: Closed

Below the columns, add a copyright bar:

- Horizontal line `<hr>`
- Copyright text: "© 2025 Wanderlust Travel Agency. All Rights Reserved."
- Additional links: Privacy Policy | Terms of Service

Style the footer with:

- Dark background color
- Light text color
- Four columns displayed in a row (each 25% width)
- Headings in white or accent color
- Links with no underline, lighter color, hover effect
- Social links displayed horizontally
- Copyright section with smaller text, centered
- Padding throughout

---

10. Global Styling Requirements

Apply these styles to the entire page:

- Set `* { box-sizing: border-box; margin: 0; padding: 0; }` as reset
- Choose a modern font-family
- Set a base line-height for readability (1.6)
- Define a consistent color scheme (3-4 colors)
- All `.section` elements should have consistent vertical padding

- Add scroll behavior smooth for anchor links: `html { scroll-behavior: smooth; }`
- All images should have `max-width: 100%` for responsiveness
- Use consistent border-radius values throughout
- Add transition effects to interactive elements

Files to Submit

1. `travel.html` — Your HTML file
2. `styles.css` — Your CSS file (if using external stylesheet)

Concepts Covered

- HTML5 semantic structure
- Navigation with fixed positioning
- ID and Class selectors
- Multiple classes on elements
- Links, images, lists, forms
- CSS box model
- Display and positioning
- Flexbox or inline-block layouts
- Hover effects and transitions
- Pseudo-elements (::before)
- CSS specificity
- Typography and color schemes
- Responsive image techniques

Good luck!
